

EUROPEAN PAEDIATRIC NEUROLOGY SOCIETY

Dear Colleague

Have you thought of joining the EPNS? The European Paediatric Neurology Society brings together paediatric neurologists and allied disciplines from all parts of Europe and beyond. EPNS members are dedicated to promoting clinical care and scientific research in the field of paediatric neurology.

Membership opens doors and aids contact between colleagues. I find the EPNS invaluable. New friendships are made, and networks created. This allows us to advance collaborative research, training opportunities and to define and promote standards for service delivery.

The EPNS has an active rolling training programme to complement a pan-European syllabus. We have annual high-quality subsidised training courses (also with reduced registration fees for members). These run in parallel with a Distance Learning Course now introduced to the UK, Holland, Switzerland and Germany which will become web-based in 2009.

Membership subscriptions are excellent value and we offer discounted rates to our colleagues who live in certain countries.

Membership benefits include a subscription for the European Journal of Paediatric Neurology, published six times a year and reduced registration fees for the biennial Conferences which are held all over Europe. Our next Congress will be held in Harrogate, UK in September 2009 and promises to be just as successful as the Turkish Congress last year.

Further information about the EPNS and a new member application form can be found on our website <http://www.epns.info/> or alternatively if you have any queries please do not hesitate to contact Sue Hargreaves, Membership Secretary by email on info@epns.info who will be happy to help.

Kind regards

Richard Newton
EPNS Board Member
